## 👤 ABOUT ME

I am a motivated computer engineering student with a passion for web development and cybersecurity. I have hands-on experience in a variety of programming languages and technologies, including C, C++, Haskell, Java, and web development frameworks like Angular, Node.js, and Spring Boot, Im not and expert but i can defend myself with this technologies. I'm proficient in working with SQL databases such as MariaDB and Oracle, and have practical knowledge of ERP systems like Odoo.
My cybersecurity skills were honed during a year-long course with HackingPro, where I gained expertise in Kali Linux, Python, and various cybersecurity tools. Currently, I am expanding my knowledge in network management and system administration focusing on create my own VPS enviroment to test and share my proyects. I am eager to apply my skills in a professional environment and continue growing in the tech industry.
